

ISOCOL™

Isocol Rubbing Alcohol is an effective antiseptic, cleanser and freshener all in one product!

Isocol is proudly Australian Made and Owned, and has a 30 year Heritage. With a variety of clinical and personal uses, Isocol Anti-bacterial solution offer Hospitals and Healthcare networks a versatile, effective and economic solution to everyday sanitising needs.

Key ingredient: Isopropyl Alcohol

Recommended for **ages 5 - 75**

100% Isopropyl Alcohol 300mL

Isocol 100% Isopropyl Alcohol kills germs, evaporates quickly and can be used on a multitude of surfaces including medical equipment, to prevent cross contamination.

Directions for use:

- Use undiluted
- For external use only
- Do not mix with detergents or chemicals

Warnings:

- Do not apply 100% Isopropyl to burns or broken, inflamed skin
- Administer in a well-ventilated place
- If excessive drying of the skin occurs, discontinue use of Isocol
- Highly Flammable

Multipurpose Anti-bacterial Solution 345mL

Uses:

- Kills germs on skin, as a clinical hand sanitiser
- Acts as an astringent
- Liniment for muscle aches

Directions for use:

- Skin: Apply Anti-bacterial Solution to the skin and leave for 15 seconds
- Surface: Apply to surfaces to clean and sanitise. Allow bench or surface to dry
